

Tyler Allen

774-279-1607 | tyler-allen.com | tylerallen@live.com | linkedin.com/in/tylerallen1 | github.com/LifestreamX

Full-stack developer specializing in modernizing healthcare and e-commerce platforms with JavaScript/TypeScript, React, Next.js, and Node.js. At Meddkit, shipped a HIPAA-compliant patient-provider messaging product end to end — from Drizzle data models and Stripe billing to accessible, secure front-end interfaces — owning features from architecture through deployment on AWS within an Agile team.

TECHNICAL SKILLS

Languages: HTML5, CSS3, JavaScript (ES6+), TypeScript, SQL, Python
Front-End: React, Next.js, Vue.js, Redux, Preact, SASS, Bootstrap, Material-UI, Tailwind CSS, Styled Components
Back-End & Databases: Node.js, Express.js, Firebase, Prisma, Drizzle, MongoDB, MySQL, PostgreSQL, CockroachDB, Supabase
Cloud & DevOps: AWS (EC2, S3, Lambda, RDS, CloudFront, Amplify, EventBridge, Secrets Manager), Docker, Git/GitHub, Cloudflare
Integrations & Tools: Stripe, n8n, Zapier, ActiveCampaign, Kajabi, Jest, AI-assisted development (Claude Code, GitHub Copilot, ChatGPT, Gemini)
CMS & E-commerce: WordPress (Elementor, Oxygen, Kadence), Shopify (migration & Liquid customization)

EXPERIENCE

Full-Stack Developer June 2024 – Present

Meddkit

- Two-way messaging application:** Built and shipped a Next.js web app for secure SMS between healthcare providers and patients, with dynamic-link authentication for passwordless patient login — improving appointment attendance and patient engagement.
- Patient management:** Designed CRUD interfaces and bulk CSV import for patient records with regulation-compliant opt-out controls, streamlining administrative onboarding and reducing manual data entry.
- Subscription billing:** Integrated Stripe for self-serve sign-up, billing management, and gated access to premium features, enabling the product's first recurring-revenue tier.
- Back-end architecture:** Modeled the application's data layer with Drizzle and built server-side endpoints powering reliable, type-safe data flow between client and database.
- Account & profile management:** Built company-profile creation and invitation flows, organization user management, and user settings (contact details, Google account linking) with role-based admin controls.
- HIPAA compliance:** Implemented secure authentication, access controls, and audit-safe data handling across all patient-communication workflows.
- Accessibility (ADA / WCAG):** Audited client-facing apps with Lighthouse and axe DevTools, resolving issues to meet WCAG standards and improve usability across all applications.
- Reporting dashboard:** Developed an admin dashboard (Next.js, Prisma, Tailwind CSS) aggregating third-party APIs to give clients real-time insight into project hours and usage.
- Client web & e-commerce:** Migrated a high-traffic store from WordPress to Shopify, improving checkout reliability, load times, and sales. Built Vue.js internal tooling, an AI support chatbot, and ad/conversion tracking; implemented wholesale and affiliate sales channels.
- Cross-team collaboration:** Partnered with product teams and clients to scope and ship new features, and authored detailed release notes to keep clients aligned on every update.

Full-Stack Developer (Contract) January 2024 – June 2024

Crispy

- Led front-end development** for an AI-powered food-search platform, building user interfaces from concept to deployment with a focus on intuitive UI/UX.
- Built secure back-end features:** Implemented user authentication and designed efficient database schemas for user profiles and search data.
- Ensured quality across devices:** Added comprehensive form validation and applied responsive design for reliable functionality on any screen.
- Drove tech-stack selection** (React, Tailwind) and collaborated with product managers and designers to align technical choices with product goals.
- Worked Agile:** Participated in sprint planning, code reviews, and continuous integration to ship features iteratively while maintaining code quality.

OTHER EXPERIENCE

Personal Trainer Sep. 2018 – Jan. 2024

- Created and coached personalized in-person and virtual fitness programs, building strong client-communication, goal-setting, and motivational skills while staying current on exercise science and wellness trends.

EDUCATION

Salem State University — Bachelor of Science, Criminal Justice (GPA 3.70) May 2016
Certified Personal Trainer — American Council on Exercise Sep. 2018
